

Doctors Across North America Talk About

Tahitian Noni Juice

In 1993, a discovery was made that put in motion a most incredible chain of events. A simple plant from French Polynesia was introduced by a friend to two well-known food scientists, Stephen Story and John Wadsworth. This plant, known by the people of the islands of the South Pacific as Noni, had been used by Polynesians for over 2,000 years

because of its amazing health benefits. Noni was destined to become one of the most important and unique natural supplemental discoveries in decades.

The two scientists began to share this unique juice product with many friends and acquaintances. The results were astounding.

Appreciating the importance of their discovery, Stephen and John began to develop a process of harvesting, processing, and flavoring the Tahitian Noni Juice to enable them to bring it to the market. This process took over two years to complete.

Tahitian Noni Juice first entered the market in July of 1996. Since its arrival, thousands of people have benefited from its health-fulfilling properties. Many medical and health professionals in various fields from across the country, after witnessing first hand the benefits of Tahitian Noni Juice, have become independent distributors for Morinda and are singing the praises of this remarkable and unique product.

**John Wadsworth, Food Scientist;
Morinda, Inc.**

"Morinda produces Tahitian Noni Juice in large quantities, but we still keep all of the important ingredients, like *Proxeronine*, intact. Dr. Ralph Heinicke helped us in this endeavor and we are the only company that has Dr. Heinicke's endorsement and his method of testing for *Proxeronine*. Now, thousands of people in North America have been consistently taking Tahitian Noni Juice for nearly two years with amazing results. Some people have been taking the juice for nearly five years, since we first started researching the fruit. *All these people attest to the quality and benefits of Tahitian Noni Juice.*

I am 100% confident that Tahitian Noni Juice helps people. I oversee the entire process of producing Tahitian Noni Juice— from the picking, to the final delivery. We test every batch of Tahitian Noni Juice after each step in production to assure us of its quality. *Tahitian Noni Juice is an exceptional quality product."*
